**Shivanirudh S G, 185001146, Semester VII**

**19 July 2021**

---

## **UCS1711 - Mobile Application Development Lab**

---

### **Exercise 1: Application using GUI components, Font and Colours**

#### **Aim:**

Generate a registration form for a hospital to register new patient details.

#### **Code:**

#### **Main Activity:**

#### **Design:**

```

1 <?xml version="1.0" encoding="utf-8"?>

59 }
60 }

```

Output:

The image shows a mobile application interface for patient registration. The screen has a black status bar at the top with the time 8:31 and various icons. Below the status bar is a red header bar with the text "PatientRegistration" in white. Underneath the header is a light blue banner with the text "Yoyo group of Hospitals" in a handwritten-style font. The main content area is white and contains several form fields: "Name", "Address", "Age", "Date of Birth", "Gender" (with radio buttons for Male, Female, and Other), "Marital status" (with a dropdown arrow), "Contact Number", "Registration Time", and "Addiction" (with checkboxes for Smoking and Alcohol). At the bottom of the form are two red buttons labeled "SUBMIT" and "RESET". The screen is framed by a black border, and the bottom of the screen shows the Android navigation bar with back, home, and recent apps icons.
